<gglong@aps.anl.gov>, Donald Walko <d-walko@anl.gov>, Efim Gluskin <gluskin@aps.anl.gov>

```
Division:    XFD            Location:   Sector 7 Beamline Areas
Date of Inspection:        8/5/05
Inspected by:              Efim Gluskin and Jeff Alicz
```

The following items were identified during the inspection as needing corrective action:

1. Noteworthy observation: It was noticed that some progress has been made with respect
to cable management on the downstream side of 7-ID-D.

2. The cable rack and workbenches near 7-ID-D need better housekeeping (see photos
below).

3.   Some potential trip hazards were identified along the walking path downstream from the new 7-ID-D Laser Hutch (see photo below).

4.   Electrical cables still need to be better organized in the blue electronics cabinet upstream from 7-ID-C (see photo below).

Note: XFD Management would like to see further improvements in general housekeeping.
Another management-level safety inspection will take place in mid-September.

**** PLEASE SEND A REPLY EMAIL INDICATING THE CORRECTIVE ACTIONS TAKEN.
